Annual Bluegrass Biology and Management
with

Al Turgeon, Ph.D.

November 16, 2009

8:30 am – 4:30 pm

Hampton Inn Vancouver Airport
8811 Bridgeport Road, Richmond, BC

OVERVIEW:

The biology section will cover the taxonomy, genetics, morphology, anatomy, and morphogenesis (growth and development) of annual bluegrass. The management section will cover cultural operations and pest management for sustaining annual bluegrass communities. For too long, many superintendents have regarded annual bluegrass as an undesirable species and have attempted to control it through various chemical and cultural interventions, often with undesirable-sometimes tragic-results. This approach will be to help superintendents understand the strengths and limitations of this species, then how to take full advantage of these strengths and compensate for these limitations through the selection and implementation of appropriate cultural operations.

A. J. "AL" TURGEON, PH.D.

Dr. Turgeon completed his B.S. degree at Rutgers University in 1965. After a three-year tour in the U.S. Army, he pursued graduate study at Michigan State University where he completed his Ph.D. degree in 1971. He then served as assistant-then associate-professor of turfgrass management at the University of Illinois from 1971-79. He moved to Texas A&M University where he served as resident director of research at the Dallas Research and Extension Center from 1980 to 1983. His next assignment was as vice president for research and technical services with the Tru Green Corporation in East Lansing, Michigan, from 1983-86. Dr. Turgeon came to Penn State in 1986 as head of the Agronomy Department and served in that position until 1994, when he moved into an academic position in the department to pursue his TURFGRASS interests full-time. He currently coordinates all online instructional programs in turfgrass science and management at Penn State.

APPROVAL INFORMATION: This seminar is eligible for 7 CEC for both the CGSA Master Superintendent and Accredited Golf Superintendents programs. It is also eligible for .60 GCSAA education points.

To register for **Annual Bluegrass Biology & Management** please complete this form and send to CGSA with payment or register online at www.golfsupers.com.
